ABOUT ME

As an experienced web developer with one and half year of experience in the industry, I am highly skilled in creating responsive and user-friendly websites and applications that meet the needs of clients and end-users alike, with a strong foundation in programming languages such as HTML, CSS, JavaScript, and React.js. In my previous roles, I have worked on various projects ranging from small business websites to complex web applications for large enterprises.

✈️ WORK EXPERIENCE

July 2024 - Sep 2024 (3 months)

Intagleo Systems - Lahore Punjab, Pakistan

MERN Stack Developer (Internship)

- Designed and developed full-stack applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), focusing on creating responsive and user-friendly interfaces.
- Implemented robust user authentication and authorization systems using JWT and bcrypt, enhancing application security for signup and signin functionalities.
- Developed and integrated RESTful APIs to facilitate efficient communication between the front-end and back-end, improving data management and overall application performance.
- Worked closely with a cross-functional team, including designers and product managers, to define requirements and deliver features in an agile environment.
- Optimized application performance by identifying bottlenecks and implementing best practices for code efficiency and database management.
- Managed project versions and collaborated with team members using GitHub, ensuring smooth version control and codebase integrity.

Oct 2023 - Jun 2024 (8 months)

Softvalley Solutions - Lahore Punjab, Pakistan
